## Summary

I am a 3rd-year Computer Science Engineering student from Medi-Caps University , Indore. I have always aimed to explore different strands of technology; be it implicating real-life problems and solving them in the most intricate way around. I have a proficient hand on languages like Python and JavaScript. I also have a deep interest in taking out new solutions to existing real life problems.

---

## Work Experience

### Intern

**Transabel | July2020-November 2020**

- Worked closely with the technical head of the company in extracting required information from a given dataset using Python. We worked on labeled as well as unlabelled datasets. Also Worked on understanding NLP concepts in context classification and language processing domain.

---

## Personal Project

### QKart

It is a Flipkart-like web platform built using React with functionalities like Authentication, Dynamic product listing, Search, Shopping cart, Checkout process.

### XBoard

XBoard is a News Feed website developed by using Bootstrap for the frontend and obtaining the RSS feed from Flipboard. Used Figma file to understand the design requirements and constructed the page accordingly. Used HTML, CSS, Bootstrap, and JavaScript skills to achieve this.

### QTrip

QTrip is a travel website where users can browse the various Adventures on offer, based on their places of interest and book an Adventure. They can navigate between the pages by clicking on the cards and using the navigation bar. The website can also be viewed on other devices such as smartphones and tablets.

### Leetcode Submission

In this project, i wrote a program to retrofit a new feature in the Leetcode page "Submissions" column to the Leetcode Problems table using JavaScript every time the Leetcode page is visited. Used Tampermonkey Chrome extension to inject code any time the leetcode.com site is visited

---

## Skills

**Languages**-HTML,CSS,JavaScript,Python

**Database**-MongoDB

**Framework**-Bootstrap,NodeJs,ReactJs

**Tools**-Git

---

## Education

### Crio.Do

**Full-Stack Developer Program**

January 2021-July2021

Crio.Do is a project-based learning platform that helped me Upskill myself in JavaScript, React, Express, NodeJS, MongoDB, and more through internship-grade projects, hands-on activities, and immersive workshops.

### Medi-Caps University, Indore

**B-tech Computer Science**

2019-2023

CGPA-9.04
